

IGP-DURA[®]guard 32

Highly chemical resistant mixed powder system with outstanding anti-graffiti properties for indoor applications.

POWDER COATINGS.

IGP-DURA[®]guard 32

HIGHLY CHEMICAL RESISTANT MIXED POWDER SYSTEM WITH OUTSTANDING ANTI-GRAFFITI PROPERTIES FOR INDOOR APPLICATIONS.

Its special chemical resistance enables the long-term use of strong cleaners without affecting the powder-coated surfaces. This is to guarantee its outstanding anti-graffiti feature. Its impressive robustness and the option of adding an anti-microbial effect (IGP-DURA[®]care) open up new application possibilities in fields with high hygienic demands.

Customer benefits

- Surface with high chemical resistance
- Permanent anti-graffiti protection (without additional sacrificial layer)
- Excellent dispersion
- Impact-resistant, elastic surface
- Easy2clean properties
- Good corrosion protection
- Single-coat application is feasible

Areas of application that focus on graffiti protection

Effective permanent protection against graffiti for these sectors:

- Trains, street cars and subways
- Buses and other public transportation facilities
- Municipal fixtures (indoor)
- Machines and motors subjected to oils and break fluids

Areas of application that focus on chemical and antimicrobial protection

- Effective protection for hospital furnishings, medical devices and furnishings
- Laboratory equipment
- Climate control technology
- Wet rooms and their furnishings
- Storage rooms with increased requirements against spreading bacteria
- Sanitary facilities
- Corresponding to the biocidal product regulation (regulation (EU) no. 528/2012) - BPV

Product range IGP-DURA[®]guard

IGP-DURA [®] guard 3209	smooth finish, high gloss
IGP-DURA [®] guard 3207	smooth finish, silk gloss
IGP-DURA [®] guard 321M	fine structure, matt

Product range IGP-DURA[®]care (optional)

IGP-DURA [®] care 3207	smooth finish, silk gloss
